EDITOR IN-CHIEF

The Recent Changes Noted in Education

Education today is undergoing a quiet but powerful transformation. The way students learn, teachers teach, and schools function has changed significantly in recent years, driven by technology, evolving learner needs, and a renewed focus on purpose-driven education.

One of the most visible shifts is the move from content-heavy instruction to concept-based and competency-focused learning. Classrooms are no longer limited to textbooks. Experiential learning, project-based approaches, and interdisciplinary connections are helping students understand not just what to learn, but why and how to apply it in real life.

Technology has emerged as a strong enabler. Smart classrooms, digital assessments, and learning platforms have expanded access, personalised learning, and collaboration. At the same time, there is growing awareness that technology must support learning without replacing human connection. Balance, digital wellbeing, and ethical use are now central conversations in schools.

Another significant change is the emphasis on student wellbeing and life skills. Emotional intelligence, resilience, communication, and critical thinking are being recognised as essential outcomes of schooling. Education is increasingly viewed as a process of nurturing confident, compassionate, and responsible individuals.

Equally important is the evolving role of teachers and school leaders. They are no longer just instructors or administrators, but mentors, facilitators, and lifelong learners themselves.

These changes remind us that education is not static. It must continuously respond to the world our children will inherit. As schools adapt with clarity and care, we move closer to an education system that prepares learners not only for examinations, but for life.

Head - Training (PAN India)

Hello, Amazing Edifiers!

Welcome to the third edition of EdiPrints. More than a magazine, this edition reflects the rhythm of our journey, the strength of our people, and our shared belief in education that truly transforms lives.

Across our campuses, learning is vibrant and visible. Classrooms are alive with questions, corridors echo with curiosity, and students are constantly challenging themselves to go beyond the expected. This is the Edify spirit in action.

Celebrating Success Beyond Classrooms

This edition celebrates the moments that defined the year. Our students made their mark across sports, cultural platforms, leadership initiatives, and creative pursuits, demonstrating discipline, teamwork, confidence, and resilience. These experiences remind us that education is as much about building character as it is about developing competence.

The EdiAwards stood as a meaningful recognition of dedication, innovation, and consistent effort across our community. Each award carried a story of commitment and purpose that continues to strengthen the Edify ecosystem.

One of the most significant milestones of the year was the Principals' Conclave in Dubai. More than a gathering, it was a powerful coming together of vision, leadership, and shared purpose. Thoughtful conversations and meaningful connections reaffirmed a simple truth: strong schools are shaped by empowered leaders who grow together.

These milestones belong to all of us and reflect a community moving forward with confidence and pride.

Where Learning Comes Alive

As you turn these pages, you will witness learning in its most meaningful form. Students questioning, creating, performing, and serving. From classrooms to communities, learning here has purpose.

This is not education for marks, this is education with meaning.

Looking Ahead

At the heart of our journey lies the 3C Curriculum, connecting concepts, competence, and character. We are not preparing students merely for examinations. We are preparing them for life.

The future is bright. The journey continues and the best is yet to come!!

OUR FOUNDER & VISIONARY

SHRI
DAYANAND
AGARWAL JI

VISION

Our vision is to foster a society of individuals capable of progressive thinking, creating and initiating positive change in the social, economic and cultural fabric thus making a strong impact on the global community through knowledge, understanding and attitude.

MISSION

We aspire to nurture individual talents and abilities by empowering all children, to help develop them into relatively disciplined and dynamic leaders of the future. These children will go on to become active global citizens contributing richly to our nation and the world. Our responsibility is to raise them as independent, responsible, resourceful and successful individuals with high self-esteem and confidence.

Edify Principals' Conclave - Confluence 2025

Re-imagining School Leadership in the 21st Century

The Edify Principals' Conclave - Confluence 2025 emerged as a landmark gathering, that beautifully blended leadership learning, shared vision, and the joy of togetherness. Spread across three enriching days, the conclave brought together Principals and academic leaders from across the Edify schools network and the Head Office, reaffirming Edify's collective commitment to future-ready, value-driven education.

Set against an atmosphere filled with warmth, enthusiasm, and purpose, the conclave was designed to inspire reflection and action. While every day was anchored in meaningful professional learning, the experience was equally enriched by moments of fun, frolic, and exploration. Sightseeing, informal conversations, and shared laughter infused fresh energy into the sessions, reminding everyone that joyful engagement fuels deeper learning and stronger connections.

The conclave opened with a clear focus on leadership for the evolving educational landscape. Discussions centred on the role of the Principal as a learning leader, encouraging school heads to foster inquiry, innovation, and inclusion within their campuses. Sessions on curriculum awareness and alignment strengthened understanding of academic frameworks and highlighted the strategic advantage of the Edify association. Thought-provoking conversations on design thinking invited leaders to adopt human-centred approaches to problem-solving, placing empathy and creativity at the heart of school leadership.

A defining feature of the conclave was the emphasis on innovation through systems and technology. The launch of key Edify initiatives, including EdiCenter dashboard, the Edifier platform, the EdiCenter App, and the integration of Artificial Intelligence into Edify processes, reflected the organisation's forward-looking approach. These initiatives showcased how Edify continues to empower schools through structured support, data-driven decision-making, and continuous professional development.

The second day began with an inspiring visit to IHS School, one of the most prestigious educational institutions in Dubai. The school's Principal and Academic Coordinator warmly welcomed the Edify team and personally guided them through the campus.

The visit offered a first-hand look into IHS School's thoughtfully designed learning spaces, progressive teaching methodologies, and innovative operational practices. Every interaction reflected the school's commitment to excellence, student-centered learning, and future-ready education.

Following this immersive experience, the conclave took on a truly global dimension. The discussions on leadership were enriched by the presence of two distinguished guest speakers from Dubai, whose insights, experiences, and international perspectives added remarkable depth and value to the learning journey.

The day stood out as a powerful blend of observation, reflection, and inspiration, leaving the team motivated and aligned toward higher standards of educational leadership.

Mr. Pramod Mahajan, Principal of Sharjah Indian School, shared insightful perspectives drawn from international school leadership practices, inspiring participants to think beyond boundaries while remaining rooted in strong educational values.

Ms. Juweria Saleem, Associate DSIB and BQA Inspector, offered deep insights into professional development and educational innovation, providing clarity on quality benchmarks, accountability, and continuous improvement in schools.

Collaborative sessions throughout the conclave created space for principals to network, exchange best practices, and celebrate success stories from across the Edify ecosystem. Dialogues on empowering Gen Alpha learners, blended and hybrid learning, school growth strategies, admissions, and branding reflected the diverse challenges and opportunities faced by today's school leaders. Each session reinforced the idea that leadership thrives when vision is supported by strong systems, shared wisdom, and purposeful collaboration.

Beyond the sessions, what truly made the conclave memorable was the spirit of togetherness. Leaders from across the country came together not just as professionals, but as members of one Edify family. The balance between structured learning and informal engagement strengthened relationships, encouraged openness, and built renewed motivation to return to schools with fresh ideas and renewed confidence.

The Edify Principals' Conclave - Confluence 2025 was more than a professional meet. It was a celebration of leadership, learning, and shared purpose. As Edify continues to re-imagine school leadership for the 21st century, the conclave stands as a powerful reminder that when leaders grow together, schools flourish, and the future of education is shaped with clarity, compassion, and courage.

Glimpses of Confluence 2025

EdiAwards – Honouring Excellence in the Edify School Network

The **EdiAwards** are a distinguished initiative of the Edify School Network, instituted to recognize and celebrate schools that demonstrate outstanding performance across diverse categories of excellence. These awards are based on a comprehensive evaluation of academic achievements, innovative practices, co-curricular success, leadership, and overall institutional growth. The EdiAwards reflect the spirit of commitment, quality, and continuous improvement that define Edify education. The **MDN Edify Head Office** extends its heartfelt congratulations to the schools selected for this year's EdiAwards, applauding their dedication, teamwork, and relentless pursuit of excellence in shaping future-ready learners.

Edi Olympiad

At Edify, academic initiatives are designed not merely to assess learning, but to **shape thinking**. The **EdiMath National Olympiad** stands as a strong example of this philosophy an initiative that brought together students, teachers, and schools in a shared pursuit of mathematical reasoning and intellectual growth.

Conducted under the academic framework of **Edify**, the EdiMath National Olympiad saw the participation of **over 2,000 students**, from **Grades 1 to 12**, across **20 examination centres nationwide**. The scale of participation reflected the trust schools place in meaningful, well-designed academic challenges that go beyond routine assessments.

The Olympiad was carefully structured to evaluate conceptual clarity, logical reasoning, and application-based understanding. Students were encouraged to think independently, analyse situations, and apply their knowledge in unfamiliar contexts. For many learners, this marked their first experience with an Olympiad-style examination—one that demanded focus, strategy, and confidence rather than memorisation.

Several schools demonstrated remarkable academic performance. **Edify School Patna**, **Edify World School Anantapur**, and **Edify School Proddatur** stood out with exceptional results, while **Edify World School Firozabad**, **Edify World School Kurnool**, and **Edify World School Whitefield** also performed admirably. Alongside these, many other Edify schools participated with equal enthusiasm, reinforcing the strength and consistency of learning across the network.

The evaluation process highlighted the true success of the Olympiad. The competition was intense, with many students achieving identical scores and several missing medal positions by just **one mark**. Such close outcomes made the selection process challenging, yet they also reflected the high academic standards achieved across participating schools.

Ultimately, the EdiMath National Olympiad was not defined by medals alone. It succeeded in fostering discipline, resilience, and a positive academic mindset among students while strengthening collaboration among educators.

“When assessment is designed to challenge thinking rather than memory, excellence becomes a shared outcome rather than an individual pursuit.”

Grade 1		
Student Name	School Name	Medal Name
Zoya Kayla Qureshi	Edify World School Varanasi Campus	Gold
Milank	Edify International School	Gold
Vansh	Edify International School	Gold
Vansh	Edify World School Firozabad	Silver
Ashraj Gupta	Edify World School Firozabad	Silver
Shashank Yagn Shrivastava	Edify World School Kurnool	Bronze
J. Karthika	Edify World School Walajpet	Bronze
Vedant Chatur	Edify School Kalyan	Bronze

Grade 2		
Student Name	School Name	Medal Name
Hemant Mishra	Edify School Proddatur	Gold
Deyvid	Edify International School	Gold
Dhruvraj Edify	Edify School Proddatur	Gold
Ashwarya Singh	Edify School Anantapur	Silver
M.S. Divya Aditya	Edify World School Walajpet	Silver
M. Tirtha Varun	Edify World School Walajpet	Bronze
MD. Haseem	Edify School Bales	Bronze

Grade 3		
Student Name	School Name	Medal Name
Zoya Kayla Qureshi	Edify World School Varanasi Campus	Gold
Vansh	Edify International School	Gold
Anshika	Edify International School	Silver
Milank Shrivastava	Edify World School Kurnool	Silver
Shashank Yagn	Edify World School Firozabad	Bronze
Charanya Chinnappa	Edify School Patna	Bronze
Navya Ansh Kumar	Edify School Bales	Bronze
Dhruvraj	Edify World School Whitefield	Bronze

Shreya Ranish	Edify School Pata	Bronze

Edi Sports

Celebrating Strength, Spirit & Sportsmanship

EdiSports is Edify Education’s flagship sports initiative, designed to nurture physical fitness, discipline, teamwork, and resilience among students across all Edify schools. Rooted in Edify’s 3C philosophy – Character, Content, and Competence, EdiSports goes beyond competition to build confident, focused, and future-ready learners.

Through structured tournaments, multi-sport events, and age-wise categories, EdiSports provides students a professional platform to showcase their talent in athletics, team sports, indoor games, and fitness challenges. The programme emphasizes fair play, leadership, perseverance, and emotional strength, ensuring holistic development of every child.

Each EdiSports event is not just a sporting meet, but a celebration of unity, energy, and the indomitable spirit of young champions. It reflects Edify’s commitment to nurturing healthy bodies, sharp minds, and strong values.

With Heartfelt Thanks to Edify Tirupati

We extend our sincere gratitude to Edify School, Tirupati, for graciously hosting the EdiSports event and making it a grand success.

Your impeccable planning, warm hospitality, disciplined coordination, and vibrant campus atmosphere created an inspiring environment for our young athletes to perform at their best. The dedication of the management, teachers, staff, volunteers, and students truly reflected the Edify spirit of excellence and collaboration.

Thank you, Edify Tirupati, for being wonderful hosts and for contributing to the success of EdiSports by creating memories, milestones, and moments of pride for all.

Together, we continue to build a stronger, healthier, and more united Edify community.

EdiLit Competition

A signature literary platform created to unite Edifians through shared intellectual and creative pursuits, fostering a strong culture of reading, thinking, and expression across the Edify school network. The initiative offers students meaningful opportunities to engage in diverse literary activities such as debates, creative writing, poetry, storytelling, elocution, quizzes, and reading engagements. Structured with age-appropriate categories and clear participation frameworks, EdiLit ensures inclusivity, fairness, and wide student involvement. Moving beyond competition, the programme focuses on enhancing communication skills, critical reasoning, imagination, and confidence, enabling students to express ideas thoughtfully and effectively. EdiLit reflects the collective academic spirit of Edify shaping reflective, articulate, and confident learners equipped to communicate with purpose in a global context.

Edify World School, Balapur

Edify World School, Balapur proudly celebrates a remarkable series of student achievements across academics, arts, international exposure, and

sports, reflecting its commitment to holistic excellence. Master Shrinandan Chary Chelpuri of Grade 5 achieved a distinguished milestone by completing the Level 5 syllabus of the London College of Music, University of West London, regulated by OFQUAL, at Phillips School of Music. Students also participated in an enriching educational trip to the United States of America, including an immersive experience at NASA under the guidance of Ms. Ameena Afreen, enhancing their global awareness and scientific curiosity. In academic excellence, Shaik Inaya Mahreen of Grade 3 emerged as the City Topper in Spell Bee Level 1, while Parinitha of Grade 10 secured the Gold Medal in the Spell Bee Competition, demonstrating exceptional linguistic skills, focus, and dedication.

The performing arts and sports segments witnessed outstanding accomplishments. Akuthota Aarvi (Grade 2), Shourya Mankala (Grade 4), Moksha Vancharla (Grade 4), B. Tanvi (Grade 4), and B. Snigdha (Grade 6) received the Best Effort Award at the Kalakar Telugu TV National Level Dance Competition. N. Sri Arjun (Grade 9B) secured First Prize at the Regional Level in Gaana Natya Siri 2025, and N. Aditya (Grade 5A) achieved First Prize at the Regional Level in Samsruthi Kalalakshra All India National Competition. S. Amuktamalyada (Grade 4) earned recognition at Kakatiya Kala Vedika, Warangal for her Kuchipudi performance, while G. Sree Dhanvi (Grade 6) starred in the feature film “23 (Iravai Mudu).” Aarush Patalay (Grade 10) performed alongside Jacqueline Fernandez at the Miss World 2025 finale and also shared the stage with Allu Arjun. In sports, Reyansh Baranwal (Grade 5) won a Bronze medal in the 1000 meters and a Silver medal in the 200 meters at the District Level Athletics Championship, reflecting exceptional discipline and determination.

These accomplishments reflect the vibrant talent, dedication, and excellence nurtured at Edify World School, Balapur.

Dr. Sumit Sahu, Principal

We are proud to share that Dr. Sumit Sahu, Principal of Edify School Chhindwara, has been conferred with the Best Principal of the Year Award at the India School Awards, one of the country's leading education conferences and recognition platforms for schools and educators.

The India School Awards are presented during a national-level education conference that brings together school leaders, education experts, and institutions from across India to recognize excellence in academic leadership and innovation. Such conferences typically celebrate contributions to student development, institutional growth, and educational best practices.

Dr. Sahu's leadership at Edify School Chhindwara reflects commitment to academic excellence, student-centric learning, and overall institutional development. This recognition highlights his dedication to shaping a progressive learning environment for students and strengthening the school's reputation at the national level.

Edify International School, Kalaburagi

Mr. Anirudh

Mr. Anirudh, a Grade 1 student, has brought great pride by winning **two Silver Medals** at the **National Level Speed Skating Competition**.

His impressive performance at such a young age highlights his talent, dedication, and passion for the sport.

Congratulations to Anirudh on this remarkable achievement—wishing him many more milestones and successes ahead!

Edify School, Tirupati

Edify World School, Kurnool

Congratulations to our dedicated team for their passion and excellence. Together, we set new benchmarks!

Mentor Speak

Ms. Kavya Bai MP
Academic Head
Edify World School
Balapur

Mentorship is an essential pillar of holistic education, extending beyond academics to nurture confident and responsible individuals. As an Academic Head, I believe mentoring provides students with the guidance and encouragement they need to recognize their strengths, overcome challenges, and stay motivated in their learning journey.

Through consistent interaction and thoughtful support,

mentorship helps students develop discipline, resilience, and clarity in goal setting. It creates a supportive environment where learners feel valued, heard, and empowered to grow both academically and personally. An effective mentorship programme not only strengthens academic outcomes but also prepares students to face future challenges with confidence and integrity. Being a mentor and witnessing the growth of young minds is truly a rewarding experience.

'Respected Principal, teachers, and my dear friends.

I want to take a moment to express my heartfelt gratitude to Edify World School, Balapur.

This school has given me not only education, but also values that will stay with me for life. I am deeply thankful to our Principal, whose guidance and leadership always shows us the right path. The teachers here are very supportive and patient, and they always encourage us even when we make mistakes or feel less

confident.

The discipline and conduct of this school is something truly special. From morning assembly to classrooms, we are taught respect, responsibility, and good behavior. These lessons are not only for exams, but for real life also. I feel proud to be a part of Edify World School, Balapur, and I will always carry its teachings with me. Thank you for believing in me and helping me grow into a better person.'

Mentee Speak

Mentor – Mentee

Mentor Speak

Zamila Begum
English Facilitator
Edify school, Proddatur

If you ask me what a perfect school looks like, I would say it feels straight out of a movie – and for me, that is Edify School Proddatur. The well-organised classrooms, well-equipped laboratories, and green, vibrant campus creates an environment where learning feels inspiring rather than overwhelming.

The spacious classrooms with smart boards, proper ventilation, and modern facilities enhance the learning experience, while the AI rooms reflect how technology can empower human potential without replacing it.

What truly sets Edify apart is its people – dedicated teachers, a proactive management, and a holistic approach towards education. Equal importance to food and hygiene further ensures students' overall well-being.

As a mentor, I feel proud and grateful to be part of an institution that not only educates but truly nurtures future-ready individuals.

Mentee Speak

My Experience at Edify School, Proddatur

From the moment I step onto the campus, I feel a sense of comfort and belongingness. The classrooms are spacious, well-organised, and thoughtfully designed with modern air-conditioning, proper ventilation, and smart boards that make learning interactive and engaging. The well-equipped laboratories provide a safe and inspiring space where curiosity is encouraged and learning becomes exciting rather than overwhelming.

One of the most fascinating aspects of my school, is its forward-thinking approach to education. The AI rooms truly stand out, enhancing our learning experience while reminding us that human intelligence, creativity, and values remain irreplaceable. This balance between technology and humanity makes our education meaningful and future-ready.

The playground is another space I deeply admire. Surrounded by greenery and a calm, pleasant atmosphere, it is where students discover their strengths, build discipline, and even grow into national-level athletes. It teaches us teamwork, resilience, and confidence beyond textbooks.

What truly makes Edify special is its people. The dedicated teachers, mentors, and management, with their proactive and holistic approach, make me feel secure and supported. As a mentee, I feel guided and encouraged—not only academically, but emotionally and morally as well.

Food and hygiene are given great importance, reflecting how deeply the school cares for our health and well-being. This attention to detail makes my school a safe, nurturing, and trustworthy environment for every student.

I feel immensely grateful and proud to be a mentee of Edify School, Proddatur. It is not just an institution—it is a place that shapes minds, builds character, and prepares us for life with confidence and compassion.

Divya (Grade 8)
Edify School, Proddatur.

Message from Director, Edify World School, Balapur

V. Anish Reddy
Director
Edify World School
Balapur

It gives me immense pleasure to witness the continuous growth and achievements of our school community. Every child is nurtured with care, values and quality education to help them become confident and responsible individuals.

I appreciate the dedicated efforts of our teachers, parents and students who work together to create a positive and inspiring learning environment. Let us continue to strive for excellence

and shape a brighter future for our children.

I sincerely appreciate the dedicated efforts of our teachers, the unwavering support of our parents, and the enthusiasm of our students, who together create a positive and inspiring learning environment. Let us continue to strive for excellence and work hand in hand to shape a brighter future for our children.

Message from Principal, Edify World School, Balapur

A deep sense of pride fills us as we watch our students flourishing not only in academics but also in character, confidence, and creativity. Our school remains steadfast in its commitment to nurturing a warm, inclusive, and stimulating environment where every child is inspired to explore, learn, and achieve their fullest potential.

Heartfelt gratitude is extended to our dedicated teachers and

ever-supportive parents for their invaluable partnership in shaping the future of our learners. As we move forward together, let us embrace challenges as opportunities, ignite curiosity, and inspire each child to dream big and accomplish more.

Together, we can ensure that our students grow into responsible, compassionate, and confident citizens who are prepared to excel in all walks of life.

Sailaja Kanugo
Principal
Edify World School
Balapur

Message from Director, Edify School, Kadapa

Dr. T Sunil Kumar Reddy
Director
Edify School, Kadapa

It is with immense joy and pride that I present this edition of our school magazine, a vibrant testament to the burgeoning talent and creativity within our school community. As Sydney J. Harris wisely said, the true purpose of education is to "turn mirrors into windows," allowing us to see beyond ourselves and explore the vast potential within.

Our mission at Edify School Kadapa extends beyond textbooks; it's about nurturing character, fostering discipline, and building leaders of integrity and compassion. We strive to create an environment where every student feels empowered to explore, learn from challenges, and become a lifelong learner, ready to contribute positively to society.

To our dedicated teachers, thank you for being the guiding lights, illuminating paths and igniting curiosity. To our parents, thank you for your unwavering trust and partnership in this noble journey.

As you delve into these pages, I encourage you to reflect on your strengths, embrace your individuality, and always remember that the journey of self-improvement is a continuous one. May you always have the courage to chase your dreams, the wisdom to learn from every experience, and the kindness to uplift others.

Here's to a future filled with achievement, innovation, and bright possibilities!

Message from PSP Coordinator, Edify School, Kadapa

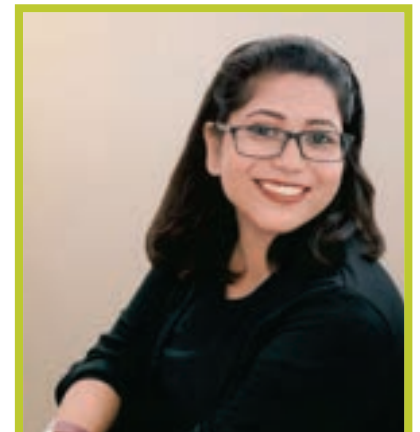

I'm proud to be a part of Edify School Kadapa, where we foster a positive and child-friendly learning environment. Our students love coming to school, thanks to our perfect blend of academics, creativity, and joyful experiences.

One of the highlights of our school is the co-scholastic activities. These sessions allow children to explore their interests, build confidence, and develop new skills beyond the classroom. From art and music to sports and hands-on projects, ESP activities keep students engaged, active, and excited.

Our school library is another favourite spot for many learners. It offers a peaceful atmosphere where children can read, discover new stories, and develop a love for books. The library nurtures their imagination and helps strengthen their language skills.

At Edify School Kadapa, we're known for our friendly and supportive environment. Our teachers and staff ensure every child feels safe, respected, and motivated. We focus on holistic development, encouraging students to grow academically, socially, and emotionally.

I'm grateful to be part of this institution and to contribute to the growth and success of our students.

Dinky Bohra
PSP Coordinator
Edify School, Kadapa

Message from Director, Edify School, Patna

Mr. Piyush Kumar
Director
Edify School, Patna

Greetings to all Edifiers!

In collaboration with MDN Edify Education, Hyderabad, we established Edify School Patna in 2017, to provide students with a holistic learning experience. Our focus continues to be on activity-based learning and innovative teaching methods & this has created a nurturing environment that fosters creativity and growth. The 3C - Inquiry Based Curriculum, has taken strong roots and parents have been greatly appreciative as their wards take ownership of their own learning.

Edify School Patna has now become a hub for academic excellence, offering a unique blend of traditional and modern approaches. The school has set a benchmark for quality education and is considered as one of the leading CBSE school in the region. We believe in providing a well-rounded education that goes beyond academics, with a strong focus on extracurricular activities. With minimum of turnover, our dedicated staff ensure that students maximize their potential under the care of this team. We are very particular about the professional development of our facilitators and ensure that trainings are happening at regular intervals.

We pride ourselves in having full strength of students within available space as per our infrastructure. The school is now planning upgradation to Senior Secondary and developments have started accordingly.

Having been involved in every detail of my school's growth, I understand the kind of quality & commitment of Edify Schools and extend my good wishes to all. Let us continue this wonderful journey of academic excellence together.

Tie-Up with Academies - Edify

MDN Edify Education is proud to announce tie-ups with various academies to enrich our curriculum. It is recommended that schools utilize this opportunity to spruce up their curriculum. Reach out to HO for any help or clarification.

Strategies on Improving The Board Results

Workable Strategies for Improving Board Results

Improving board examination results is not about last-minute pressure or excessive testing; it requires a balanced, student-centric, and data-driven approach that focuses on strong fundamentals, consistent practice, and emotional support. The following strategies are innovative yet practical and can be effectively implemented in any school environment.

1. Strengthening Conceptual Foundations

Strong board results begin with clarity of concepts. Teachers should prioritize concept-based teaching rather than rote learning. Each chapter should start with real-life examples, visual aids, and simple explanations to help students truly understand the topic. Regular concept-check sessions can identify learning gaps early and prevent long-term confusion.

2. Micro-Level Academic Planning

Instead of a generic syllabus plan, schools should adopt micro-planning at the student level. Monthly and weekly targets must be set, clearly outlining what needs to be completed and revised. Teachers should track each student's progress and provide personalized academic support, especially to slow learners, without labeling or discouraging them.

3. Smart Assessment and Feedback System

Assessments should go beyond marks. Frequent low-stress tests, chapter-wise quizzes, and mixed-question papers (MCQs, case studies, and descriptive questions) help students get comfortable with board patterns. Detailed feedback—highlighting strengths and specific areas for improvement—boosts confidence and guides focused preparation.

4. Structured Revision and Retention Techniques

Revision should be continuous, not seasonal. Schools can implement three-level revision cycles: immediate revision after completing a chapter, cumulative revision every month, and intensive revision before exams. Tools like mind maps, formula sheets, and summary notebooks can greatly improve retention and recall during exams.

5. Exam-Oriented Writing Practice

Many students lose marks due to poor presentation or incomplete answers. Regular answer-writing practice under timed conditions helps students learn how to structure responses, manage time, and meet board expectations. Teachers should demonstrate model answers and common mistakes to avoid.

6. Mentorship and Emotional Support

Academic success is closely linked to emotional well-being. Assigning teacher-mentors to small groups of students helps build trust and motivation. Regular interactions, counseling sessions, and stress-management workshops ensure students stay mentally strong and exam-ready.

Strategies on Improving The Board Results

7. Parent Involvement as Partners

Parents should be guided on how to support learning at home without creating pressure. Periodic parent-teacher meetings focused on progress, habits, and strategies—not just marks—create a strong support system around the student.

8. Motivation and Positive Learning Culture

Recognizing improvement, effort, and consistency—along with top scores—creates a positive academic culture. Motivational talks, peer learning groups, and success stories inspire students to believe in their abilities.

Conclusion

Improving board results is a collective effort that combines effective teaching, structured planning, regular feedback, emotional care, and continuous motivation. When students feel supported, prepared, and confident, strong board performance becomes a natural outcome rather than a forced target.

Recent Affiliation Milestone

Edify is proud to share a moment of great accomplishment with our entire learning community.

We are delighted to announce that several Edify schools have recently received affiliation from reputed national and international boards, including CBSE and Cambridge. This milestone reflects our collective commitment to academic excellence, quality standards, and student-centric education.

These affiliations are not just approvals, but a recognition of the hard work, dedication, and vision of our school leaders, teachers, staff, students, and parents who continuously strive to raise the bar of education.

We congratulate the entire Edify fraternity on this remarkable achievement and wish all our newly affiliated schools a journey filled with happy teaching, inspired learning, and continued success.

Together, we move forward—stronger, better, and future-ready.

We are proud to share a major milestone in our journey of innovation — **the successful launch of the Edify Digital Ecosystem**, a unified suite of platforms designed to connect leadership, educators, and students through purpose, data, and technology.

This launch marks a transformational step in how our schools function, learn, and grow in an increasingly digital world.

Edi Center Dashboard – Leadership Command Hub

The new Edi Center Dashboard provides principals with instant access to reports, analytics, and school performance data — all in one place. Decision-making is now faster, smarter, and data-driven.

One Platform. One Network. Infinite Possibilities.

Edi Knowledge Bank Report – Measuring Academic Engagement

School leaders can now view how learning resources are utilized across campuses. With employee-wise download tracking and trend analysis (daily to yearly), the system helps identify active users, guide support, and measure the impact of shared resources.

Edi Pedia – SOP & Manuals – Consistency Made Simple

All Standard Operating Procedures and manuals — academic, administrative, and operational — are now centralized. Staff can instantly access policies, while usage analytics ensure compliance, clarity, and uniform practices across schools.

Edi Design – Creative Assets, Organized

From banners and brochures to campaign creatives, all approved design materials are now available in one place. Schools can track usage trends and maintain brand consistency with ease.

LMS Certificate Summary – Tracking Professional Growth

Faculty development is now visible and measurable. Training completion, certifications, and course participation reflect each educator's professional learning journey.

Edi SOT-AOT Reports – Performance with Purpose

Structured performance insights support schools in planning academic strategies, monitoring classroom effectiveness, and driving measurable improvement.

Edi Job Reports – Transparent Recruitment

Recruitment processes are now more accountable with resume tracking, shortlisting data, and utilization reports — ensuring data-driven hiring decisions.

Spotlight: EdiStudent Dashboard

The EdiStudent Dashboard personalizes each learner's academic journey with connected insights and performance tracking – ensuring every student remains supported and engaged.

Edi Mobile App – The Ecosystem in Every Hand

With a single login, staff can access the Knowledge Bank, Edi Pedia, Edi Job, LMS, and SOT-AOT modules anytime, anywhere. Learning and leadership are now truly mobile.

Intelligent AI Chatbot – Smart Search, Instant Results

The integrated AI Chatbot allows users to simply type keywords to locate policies, manuals, or documents instantly – saving time and ensuring accurate access to information.

This launch is more than a digital upgrade – it is a connected educational movement where:

- **Data drives decisions.**
- **Learning drives growth.**
- **Leadership drives excellence.**

Together, we learn.

Together, we lead.

Together, we excel.

Introducing the **Edify Digital Ecosystem**
One Platform. One Network. Infinite Possibilities.

Edifier Learning App: Redefining Education for the Digital Age

In today's fast-paced world, learning needs to be accessible, engaging, and meaningful. The Edifier Learning App brings this vision to life by placing an entire learning ecosystem right into the hands of students, parents, and teachers.

Designed as a comprehensive academic companion, the app offers seamless access to essential resources including NCERT textbooks, Cambridge books, reference materials, study notes, and formula sheets – all carefully organized grade-wise, subject-wise, and chapter-wise. With everything structured for easy navigation, students no longer need to juggle multiple books or spend hours searching for reliable content.

The app strengthens exam readiness with chapter-wise question papers, Case-Based Questions (CBQs), Higher Order Thinking Skills (HOTS) questions, and previous years' board papers for Grades 10 and 12. Students can practice effectively, revise systematically, and build confidence before every assessment. Interactive puzzles, quizzes, and challenges further transform learning into an enjoyable and engaging experience.

Understanding that students learn in different ways, the app includes video lectures that simplify complex concepts and bring lessons to life. It also features ASL (**Assessment of Speaking and Listening**) materials to enhance communication skills – nurturing abilities that go beyond academic scores.

What truly sets the Edifier Learning App apart is its holistic approach. Beyond academics, it integrates life lessons for both students and parents, focusing on values, discipline, resilience, and emotional intelligence. It is not just about achieving marks, but about shaping well-rounded individuals prepared for life.

The Edifier Learning App is more than a digital platform – it is a student's companion, a parent's guide, and a teacher's toolkit. By combining knowledge, practice, skill development, and life learning in one place, it marks a new step forward in education

Edifier Learning App – where learning truly meets life.

Greetings to all Edifiers!

Edify Kids was established with the vision of providing a strong and joyful foundation for young learners during their most formative years. We believe that early childhood education plays a vital role in shaping a child's personality, confidence, and love for learning. Our preschool follows a child-centric, activity-based approach that encourages curiosity, exploration, and experiential learning in a safe and stimulating environment.

At Edify Kids, learning happens through play, inquiry, and hands-on experiences that nurture cognitive, social, emotional, and physical development. Our classrooms are designed to be vibrant and engaging, enabling children to discover their interests while building essential foundational skills. We focus not only on academic readiness but also on life skills, communication, and value-based learning.

Our dedicated and trained facilitators ensure personalized attention and create a caring atmosphere where every child feels secure and valued. Continuous professional development programs help our team stay aligned with the latest early childhood education practices.

We take pride in building strong partnerships with parents and maintaining high standards in safety, hygiene, and overall quality. As we continue to grow, our commitment remains steadfast to nurture confident, creative, and compassionate learners who are ready to take their first steps toward a successful academic journey.

Scaffolding in Education: Transforming Learners into Confident and Independent Thinkers

In every classroom, students arrive with different abilities, experiences, and levels of confidence. Some grasp concepts quickly, while others need time, reassurance, and structured support. The true challenge for educators is not merely delivering content, but helping every learner progress steadily from dependence to confidence. This is where scaffolding becomes one of the most effective instructional strategies in education.

Scaffolding is a structured teaching approach in which educators provide planned guidance, tools, and strategies to help learners accomplish tasks they may not initially manage independently. As understanding and confidence grow, the support is gradually reduced, allowing students to take ownership of their learning. At its core, scaffolding is about progression. Dependence develops into competence, and competence matures into mastery. Rather than overwhelming students or leaving them to struggle alone, scaffolding makes learning purposeful, supportive, and achievable.

This approach works because it aligns with how learning naturally occurs. Students do not move from confusion to mastery in a single step. They build knowledge layer by layer. When learning is scaffolded effectively, students feel supported rather than pressured. Success at each stage strengthens confidence and motivation. Breaking complex concepts into manageable parts improves clarity and helps learners gradually connect ideas, apply knowledge independently, and develop critical thinking skills.

Scaffolding also promotes equity in the classroom. Every learner progresses at a different pace and requires varying degrees of support. By adjusting guidance according to individual needs, teachers ensure that no student is left behind while also extending appropriate challenges to advanced learners. This balanced support fosters inclusive and meaningful learning experiences.

The role of the teacher in scaffolding is intentional and thoughtful. It is not about supplying answers, but about guiding thinking. Teachers act as facilitators who design structured learning experiences. They provide prompts, cues, guiding questions, and constructive feedback. They model processes and demonstrate strategies, making their thinking visible so students understand both what to do and how to approach tasks. Over time, responsibility shifts gradually from teacher to learner, moving from “I do” to “We do” and finally to “You do.” This gradual release of responsibility lies at the heart of effective scaffolding.

Several strategies strengthen scaffolding in practice. Encouraging reflection helps students recognize their progress and identify areas for growth. Activating prior knowledge connects new learning to familiar experiences, making concepts more accessible and reducing anxiety. Clear goal setting gives direction and purpose, helping students understand what success looks

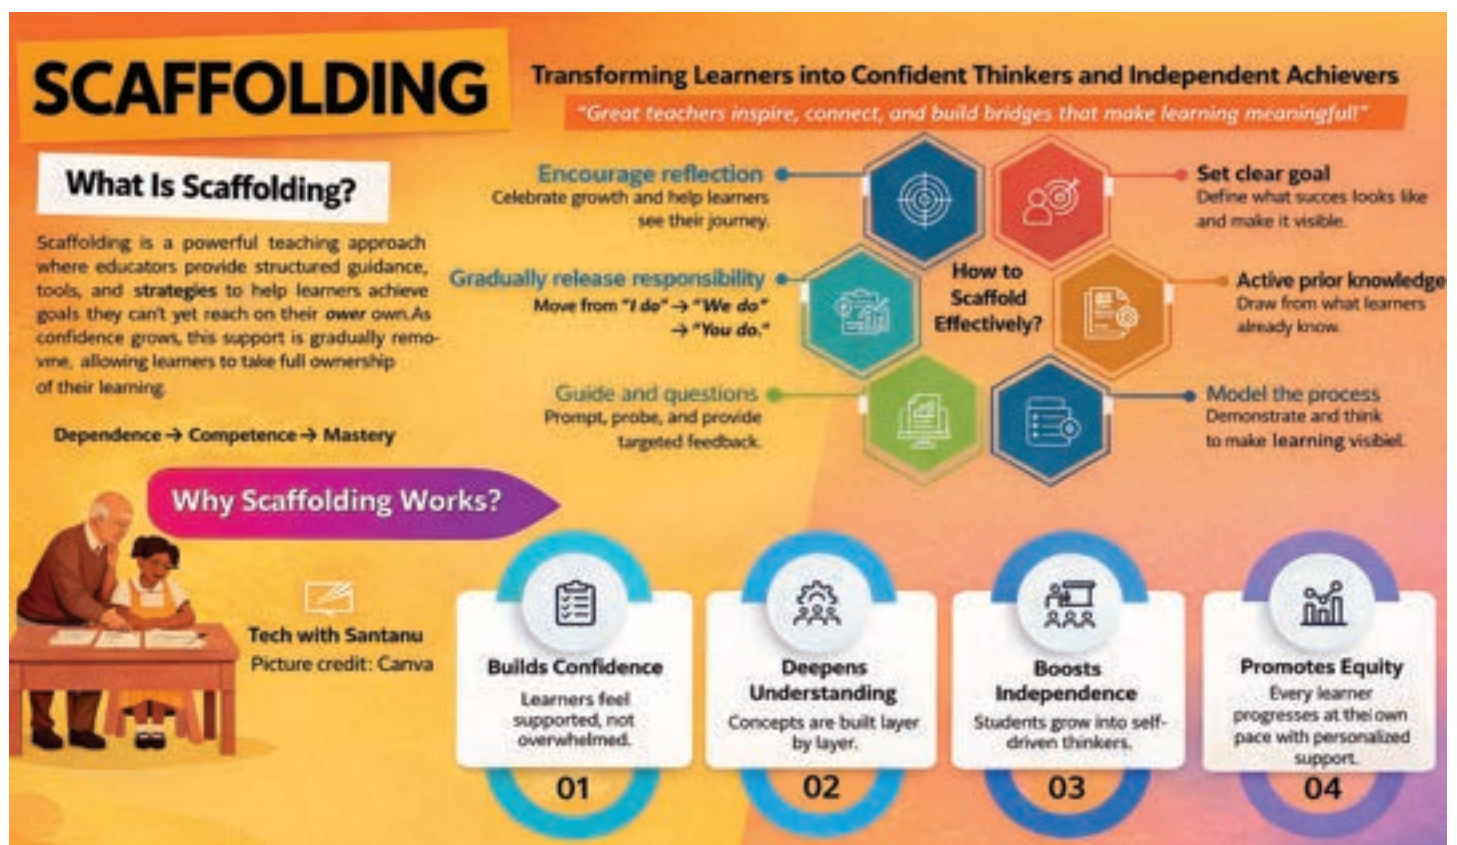

Scaffolding in Education: Transforming Learners into Confident and Independent Thinkers

like. Modeling tasks and thinking aloud demonstrates problem solving processes, while guided questioning deepens understanding and encourages independent exploration.

The ultimate aim of scaffolding is independence. As learners gain confidence and competence, support is intentionally reduced. Students begin applying strategies independently, making informed decisions, and taking responsibility for their progress. This transition is gradual and requires careful observation. Knowing when to provide support and when to step back is a critical teaching skill.

Scaffolding extends beyond academics. It supports the development of life skills such as problem solving, collaboration, and self regulation. In a rapidly changing world, the ability to learn independently is far more valuable than memorizing information. By guiding students step by step and gradually empowering them, scaffolding transforms teaching into a process of empowerment.

Ultimately, scaffolding builds confident, capable learners prepared not just for examinations, but for lifelong learning.

A Leadership Capacity Self-Assessment

For senior leaders navigating complexity, scale, and pressure

HOW TO USE THIS

- Read each statement.
- Notice your first, honest reaction.
- Tick what feels most true right now.

HOW TO REVIEW THIS

- Notice where you marked Rarely true or Not true right now
- Ask yourself: What is this costing me, my team, or the organisation?
- Decide one thing to redesign, delegate, or stop carrying

CONSISTENTLY TRUE

MOSTLY TRUE

SOMETIMES TRUE

RARELY TRUE

NOT TRUE RIGHT NOW

I have space to think, not just react.

1. My role allows time for judgment, sense-making, and perspective, not only urgency.

My role is sustainable at this level.

2. My effectiveness does not depend on constant availability, long hours, or personal overextension.

Decision ownership is clear – for me and my team.

3. My effectiveness does not depend on constant availability, long hours, or personal overextension.

My time goes into leadership decisions – not work my team should own.

4. Work does not keep flowing upward because roles are unclear, accountability is weak, or decisions are avoided.

I have the emotional bandwidth to handle complexity.

5. Pressure, disagreement, and uncertainty don't consistently drain or harden me.

The organisation does not rely on me as the final escalation.

6. Progress, judgment, and momentum continue even when I am not in the room.

I am not postponing hard people decisions.

7. I am not carrying unresolved discomfort forward and calling it "giving it time."

The pace I set is intentional.

8. Urgency is used deliberately – not as the default way work gets done.

My leadership habits are evolving with my role.

9. I am unlearning what no longer serves me – not just adding more.

Most weeks end with clarity, not depletion.

10. Being tired happens. Being consistently drained is information.

Leadership capacity isn't about doing more. It's about design, judgment, and where your energy is really going.

Strong leaders don't just need skills. They need space.

This self check is not designed to evaluate how well you are performing.

It helps you notice where your leadership bandwidth may be quietly running low.

Over the years, I have spent time in conversations with senior leaders who appear successful by every visible measure, yet are carrying pressures they rarely acknowledge, sometimes even to themselves.

Leadership at this level is not difficult because of workload alone.

It is demanding because of constant judgment calls.

Because you are expected to sit with uncertainty.

Because decisions follow you long after meetings end.

And because honesty becomes rarer as authority grows.

Most leaders do not label this strain.

They adapt to it.

And then slowly notice that thinking feels heavier, patience wears thinner, and recovery takes longer than it used to.

This is not an assessment of competence or

skill.

If you are in this space, those are already a given.

This is about capacity.

Do you still have room to think deeply, or are you mostly responding in real time?

Is the way your role is structured actually sustainable?

Are you holding decisions that your team could and should be owning?

When your week ends, do you feel clear, or quietly drained?

There is no scoring system.

No judgment.

Nothing here to repair.

Just a moment of honest reflection on what this role is currently asking of you and what may need rethinking before the personal cost becomes too high.

If you are leading through growth, complexity, or ongoing pressure, this reflection is worth ten uninterrupted minutes.

Save it.

Return to it when needed.

Or share it with someone who may never voice this aloud, but will instantly recognise it.

3C Profiles at a Glance

3C PROFILES

EMPATHETIC

One who identifies and understands the feelings and difficulties of others and is always willing to support them.

3C PROFILES

CARING

One who shows concern and compassion for others and takes steps to help them in their needs.

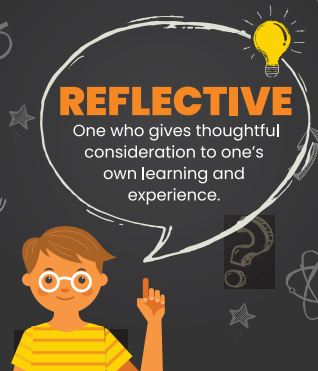

3C PROFILES

PRINCIPLED

One who acts with integrity and honesty and possesses a strong sense of fairness, justice and respect for the dignity of individuals, groups and communities.

3C PROFILES

REFLECTIVE

One who gives thoughtful consideration to one's own learning and experience.

3C PROFILES

INQUIRING

One who shows natural curiosity and is keen to acquire skills necessary to conduct inquiry and research independently.

3C PROFILES

INTEGRITY

One who adheres to moral and ethical principles diligently so as to act with honesty.

3C PROFILES

BALANCED

One who understands the importance of intellectual, physical and emotional balance to achieve personal well-being.

3C PROFILES

COMMUNICATIVE

One who is able to communicate ideas and perspectives clearly and precisely.

3C PROFILES

DECISIVE

One who is able to make logical and clear decisions while working through issues and problems.

3C PROFILES

CREATIVE

One who is able to create and display novel ideas resulting from originality of thought.

3C PROFILES

PROBLEM SOLVER

One who is able to understand problems and provide effective solutions, thus displaying critical thinking and analytical skills.

3C PROFILES

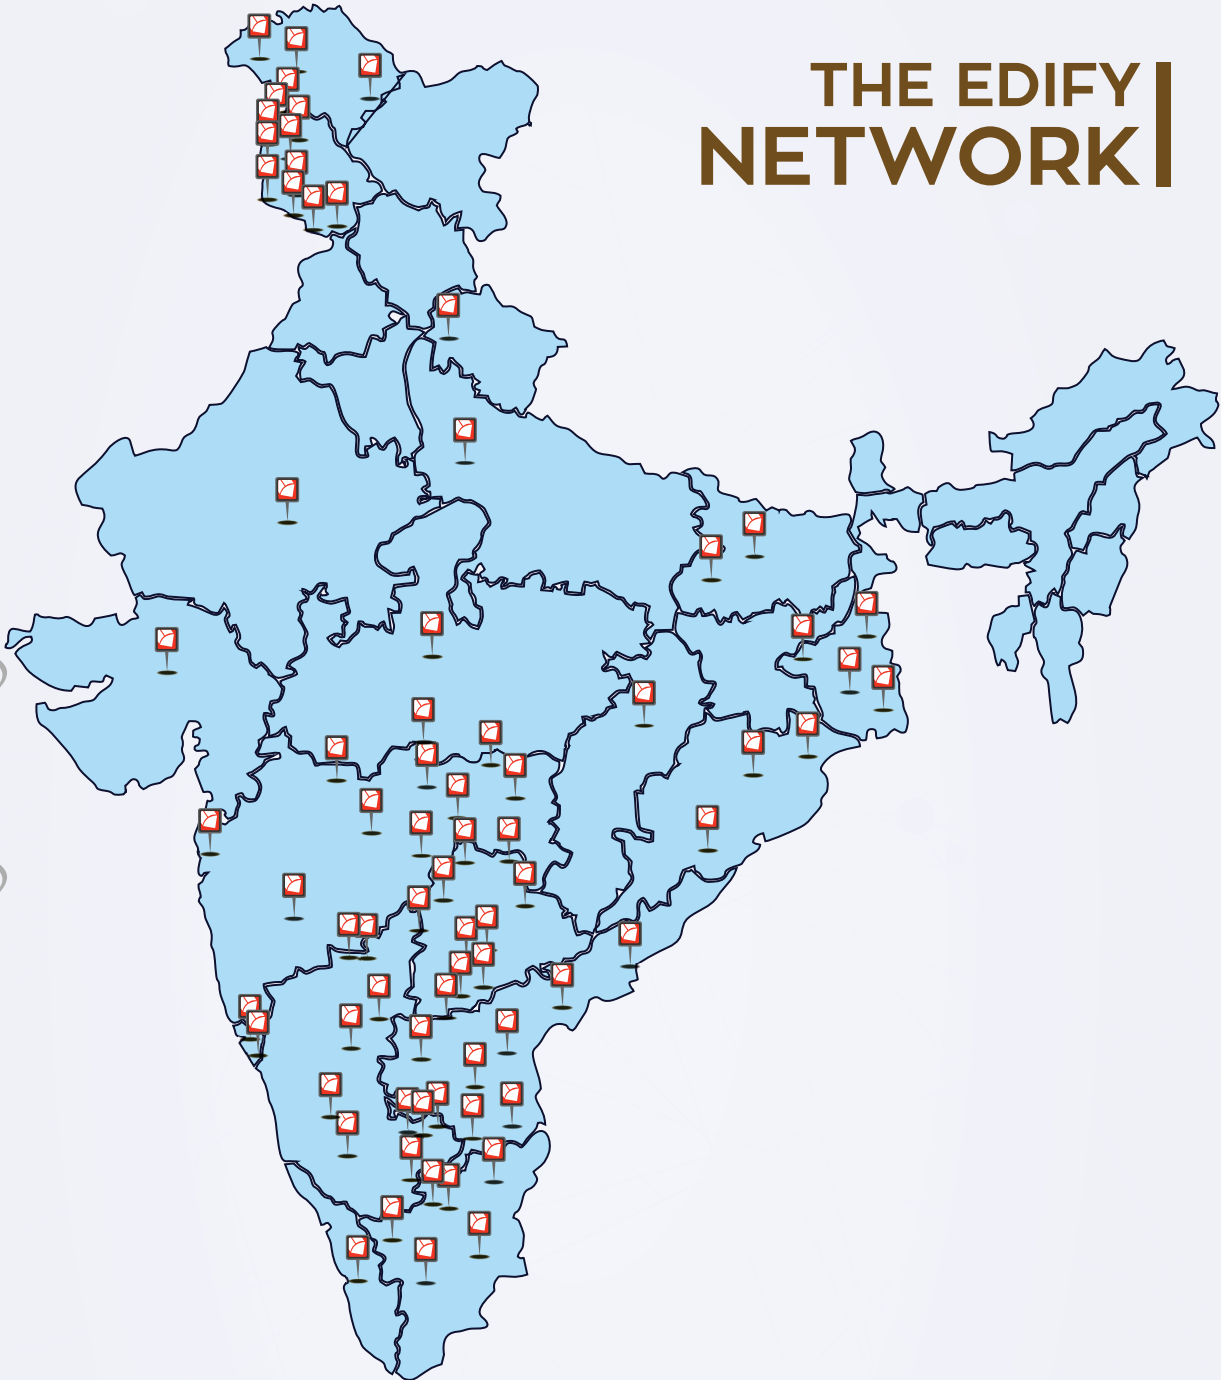

ENTREPRENEURIAL

One who initiates new and smart strategies for events and implements them successfully.
